Battery management system (BMS) has protection functions including over-discharge, over-charge, and over-current and high/low temperature. The system can automatically manage charge and discharge state and balance current and voltage of each cell. Flexible configuration, multiple battery modules can be stacked for expanding output and Capacity.

Big Battery 48V RHINO

Our 48V 14kWh battery is designed around NEW LiFePO4 cells. We add the new BMS information Display. The product can provide you 300Amp continuous power. These batteries are warrantied to last a minimum of 10 years with Zero Maintenance Required. In both short and long-term, we guarantee that you will see and feel the LiFePO4 difference!
