Overview

Who is American energy storage innovations?

At American Energy Storage Innovations Inc., we design and manufacture safe, efficient and reliable energy storage systems that are easy to purchase, install, operate and maintain. © 2024 All rights reserved. American Energy Storage Innovations, Inc. [Privacy Policy](#) | [Cookie Settings](#).

Who is American energy storage innovations (AeSI)?

Given the enormity of the opportunity, the division becomes a free-standing company, American Energy Storage Innovations, Inc. AESI comprises highly experienced core team members who have developed five generations of large-scale BESS systems, heretofore having deployed more than 1.5 GWh worldwide.

Is AeSI an independent company?

AESI will operate as a fully independent company, enjoying the continued support and backing of ABS' long-standing investors, the KCK Group. With a vision of revolutionizing energy storage, AESI is poised to take center stage in the global energy transition and is set to redefine the future of energy storage technology.

What does AeSI do?

AESI will design, build and sell stationary storage systems for grid, distributed energy and vehicle charging systems.

What does AeSI stand for?

The move enables strategic growth of ABS' Mobility and ESS businesses with better alignment to market. Lake Orion, Michigan - September 11, 2023 - American Battery Solutions (ABS) announced today the spinout of its Energy Storage Solutions Division to create a new, independent company: American Energy Storage Innovations, Inc. (AESI).

What makes AeSI different from other energy storage integrators?

AESI designs and engineers all its energy storage products starting with the industry standard LFP cells upward, unlike integrators that buy modules and/or racks of modules from others and attempt to package them into a system, AESI starts with the cells and designs the optimum system around them.

American Battery Solutions, Inc. Demonstrates 9540A Module ...

[BOSTON, MA, May 25, 2023] - American Battery Solutions, Inc.'s Energy Storage Solutions division (ABS ESS), manufacturer of the ultra-high-density TeraStor(TM) lithium-ion battery energy storage platform, today announced the successful completion of 9540A module-level testing by ESRG and FRA.

AESI: minimising EPC's role & 'shocking' price of US LFP batteries

He says that AESI and TeraStor were launched to solve four major energy storage industry challenges, namely fire safety, the need to minimise the role of EPC firms (which Collins says is a major bottleneck), reliability/availability and BESS architecture's limitations in harmonising discharge across cells.

American Energy Storage Innovations

American Energy Storage Innovations specializes in the design and manufacture of energy storage systems within the energy sector. Their products include safe, efficient, and reliable energy storage systems that are designed to be easy to purchase, install, operate, and maintain.

Solutions

At American Energy Storage Innovations Inc., we design & manufacture safe, efficient and reliable energy storage systems that are easy to purchase, install, operate and maintain. In 2007, our ambitious team pioneered the world's first self-contained 2 MW energy storage system (ESS).
