How much does a rooftop solar system cost?

Mounting system: This is what holds rooftop solar panels in place. Costs vary depending on the type of solar installation, but it generally costs between 7 and 20 cents per watt. Electrical wiring and hardware: This includes the wiring, switches and circuit breakers required to connect the solar panel system to your home's electrical system.

Which solar racking company should I Choose?

The two most popular companies for racking systems are Unirac and Ironridge, but you can also do some more research to find better options if these are not for you. Most companies like these use specialized clamping or screwing components that connect the solar panels to the racking system. 2. Non-Drilling Mounting Solutions
