ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The diagram shows a vertical Energy Storage System (ESS) cabinet. It features a central door with a handle and a lock mechanism. Two vertical green lines run down the center of the cabinet. The letters 'ESS' are printed in green in the upper right corner of the cabinet. At the bottom of the cabinet, there are two yellow triangular warning symbols with a lightning bolt inside, indicating high voltage or electrical hazards.

Global CleanTech Innovation

Program for Startups in Armenia

Mr. Frunzik Voskanyan is currently the National Project Coordinator for Global CleanTech Innovation Program for Startups in Armenia at UNIDO. The accelerator program which Mr. Voskanyan directs works with scientists who have invented new clean technologies, however, do not know how to transform that idea into a business venture.

EIF announces cleantech acceleration program

Clean Energy Technology Innovation Programme for Increased Competitiveness of the National Economy of Armenia is implemented by United Nations Industrial Development Organisation (UNIDO) and is funded by Global Environment Facility (GEF). The Programme's national partners is Enterprise Incubator Foundation (EIF).
