Which lithium ion battery cabinet should I Choose?

For safe storage (and charging) of your batteries you choose the Salvus lithium ion L2. This battery cabinet is equipped with an automatic extinguishing system, which means that any fire will be extinguished in the cabinet itself. Without causing further damage. In our webshop you will also find the Salvus lithium-ion L3 battery cabinet.

Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Should you store lithium-ion batteries on-site?

The dangers of improperly storing lithium-ion batteries have been well-documented over the past decade. Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but

potentially expensive and devastating threat to your work environment.
