Overview

Does community management influence household adoption of rooftop solar photovoltaics in rural China?

This paper examines inequality in household adoption of rooftop solar photovoltaics in rural China through a qualitative study of three villages. The Chinese government promotes distributed solar to drive low-carbon development. However, community management and China's institutional system influence unequal access.

Can solar PV help China's poorest?

A review of photovoltaic poverty alleviation projects in China: current status, challenge and policy recommendations. *Renew. Sustain. Energy Rev.* 94, 214–223 (2018). Murray, S. F. Solar PV can help China's poorest.

Can a tracking photovoltaic support system reduce wind-induced vibration?

Finite element analysis also showed a slight increase in natural frequencies with increasing inclination angle, which was in good agreement. This suggests that the design of the tracking photovoltaic support system can be optimized to reduce the impact of wind-induced vibration on the tracking photovoltaic support system.

Can agrivoltaics preserve cropland in a full-density PV system?

Compared to PV installations causing these croplands to be completely abandoned, agrivoltaics in a full-density PV system scenario could preserve up to 139 km² of cropland with a corresponding crop yield of 7.1×10^4 tons, which is 9 % of the crop yield in a no-PV scenario.

Can photovoltaic support systems track wind pressure and pulsation?

Currently, most existing literature on tracking photovoltaic support systems mainly focuses on wind tunnel experiments and numerical simulations regarding wind pressure and pulsation characteristics. There is limited

research that utilizes field modal testing to obtain dynamic characteristics.

Can solar photovoltaic projects help alleviate poverty in rural areas?

Nature Communications 11, Article number: 1969 (2020) Cite this article Since 2013, China has implemented a large-scale initiative to systematically deploy solar photovoltaic (PV) projects to alleviate poverty in rural areas.
