

European Solar and Energy Storage Solutions

Belize evergreen solar uk

Overview

Who is evergreen solar?

At Evergreen Solar, we are passionate about transforming the way we power our lives by harnessing the boundless energy of the sun. We are dedicated to delivering cutting-edge solar solutions with a commitment to environmental stewardship and energy efficiency. Your peace of mind is our top priority.

Why should you choose Evergreen Solar?

The energy revolution has begun! At Evergreen Solar, we offer a comprehensive suite of services designed to empower you with clean, sustainable energy solutions. From solar panel installations to cutting-edge battery storage and electric vehicle (EV) charging installations. Why Choose Evergreen Solar?

.

Who is evergreen power UK?

As the UK's energy landscape undergoes a transformative shift, Evergreen Power UK stands tall as a pioneer, leading the charge in sustainable energy solutions. At the heart of our commitment to a sustainable future lies our state-of-the-art Solar Photovoltaic (PV) systems.

Who is Evergreen Energy?

Evergreen Energy was formed by sustainability advocate and social entrepreneur, Stephen Critchlow, to alleviate fuel poverty in the UK and provide sustainable energy without compromise. The company was formed in 2016, though the idea was founded in it's founding businesses; ASC Renewables, Qualitick, and LED Planet.

Why should you choose evergreen power UK?

Our efforts are not just transforming how energy is consumed but are also

contributing to the UK's ambitious carbon-neutral goals. Evergreen Power UK takes immense pride in being an official partner for Sharp solar panels and GivEnergy inverters and batteries.

Will the UK achieve a five-fold increase in solar power?

The UK government has set a bold target to significantly accelerate the deployment of solar power generation, aiming to achieve a five-fold increase by 2035. This ambitious goal entails installing up to 70 GW of solar capacity, which would be ample to provide sustainable energy to approximately 20 million households across the country.
