

## European Solar and Energy Storage Solutions

# BloombergNEF German Energy Storage

## Overview

---

Will energy storage grow in 2022?

Global energy storage's record additions in 2022 will be followed by a 23% compound annual growth rate to 2030, with annual additions reaching 88GW/278GWh, or 5.3 times expected 2022 gigawatt installations. China overtakes the US as the largest energy storage market in megawatt terms by 2030.

What do we expect in the energy storage industry this year?

This report highlights the most noteworthy developments we expect in the energy storage industry this year. Prices: Both lithium-ion battery pack and energy storage system prices are expected to fall again in 2024.

How is India promoting energy storage?

India is taking steps to promote energy storage by providing funding for 4GWh of grid-scale batteries in its 2023-2024 annual expenditure budget. BloombergNEF increased its cumulative deployment for APAC by 42% in gigawatt terms to 39GW/105GWh in 2030.

How much power does bloombergnef have in 2022?

BloombergNEF increased its cumulative deployment for APAC by 42% in gigawatt terms to 39GW/105GWh in 2030. EMEA scales up rapidly through the end of the decade, representing 24% of gigawatts deployed in 2030. The region added 4.5GW/7.1GWh in 2022, with residential battery installations in Germany and Italy outpacing BNEF's expectations.

Which countries are promoting energy storage?

Japan's federal and local governments announced annual subsidy programs for utility-scale batteries, while South Korea set a 25GW/127GWh storage target by 2036. India is taking steps to promote energy storage by providing funding for 4GWh of grid-scale batteries in its 2023-2024 annual expenditure

budget.

Which long-duration energy storage technologies have a critical year ahead?

Beyond lithium-ion batteries, other long-duration energy storage (LDES) technologies have a critical year ahead. China has forged ahead with its LDES development and will remain the frontrunner this year, even as US, UK, Australia and other markets support LDES growth.

## BloombergNEF German Energy Storage

---

### 1H 2024 Energy Storage Market Outlook

The global energy storage market is growing faster than ever. Deployments in 2023 came in at 44GW/96GWh, a nearly threefold increase from a year ago and the largest year-on-year jump on record. BloombergNEF expects ...

### BloombergNEF: 30% CAGR for energy storage to 2030

Germany meanwhile could be set for a resurgence to become the third-biggest market by 2024, again driven largely by policy, this time a 200GW solar PV target which will drive battery adoption alongside residential solar.

### What the Home Battery Market Needs to Scale

BloombergNEF and battery energy storage system provider Pylontech published a report on the residential battery energy storage market at the end of 2023. The full report is publicly available here. Globally, a rapid ...

### Energy Storage: 10 Things to Watch in 2024

By Yayoi Sekine, Head of Energy Storage,

BloombergNEF. Battery overproduction and overcapacity will shape market dynamics of the energy storage sector in 2024, pressuring prices and providing headwinds for ...

## Global Energy Storage Market Records Biggest Jump Yet

Out to 2030, the global energy storage market is bolstered by an annual growth rate of 21% to 137GW/442GWh by 2030, according to BloombergNEF forecasts. In the same period, global solar and wind markets ...

## World's energy storage market triples in 2023

5 ???· The global energy storage market nearly tripled in 2023, recording its largest year-on-year rise, and is set for continued strong growth, BloombergNEF (BNEF) said on Thursday. The world added 45 GW/97 GWh last year and is ...
