Booking Solar Power

Overview

How do I choose the best way to use solar electricity?

Before deciding on the best way to use solar electricity at home, assess the potential solar energy that can be produced at your address. Because PV technologies use both direct and scattered sunlight to create electricity, the solar resource across the United States is ample for home solar electric systems.

Do you get tax credits if you lease a solar system?

When you own a system, you receive solar tax credits and incentives, but you won't if you lease. Some solar loans allow you to take advantage of the federal investment tax credit up front by allowing the loan provider or solar installer to take the credit in exchange for a reduced system cost or loan amount.

Should solar panels be treated as electricity companies/utilities?

The idea is that people who install solar panels and solar systems will be able to recoup their entire investment and make an appropriate profit, and that they will be treated exactly as if they were electricity companies/utilities. This was a radical notion back in 2000, when it was first enacted by the Bundestag.

How do I find and compare solar installers?

There are also online tools that can help you easily find and compare solar installers. Obtain at least three bids for the PV system installation and make sure the bids are based on the same characteristics and metrics to enable comparison shopping. When interviewing installers, consider asking the following questions:

Booking Solar Power
