

European Solar and Energy Storage Solutions

Bos balance of storage systems ag Germany

Overview

Who is Bos balance of storage systems?

Exciting stories about people and our planet evolve from it, stories that we love to share. BOS Balance of Storage Systems AG is a young high-tech company based in Germany. The focus on innovation in smart load management and reliable battery management systems, made BOS energy storage systems and batteries one of the most popular in their market.

Who is balance of Storage Systems AG?

BOS Balance of Storage Systems AG is a high-tech start-up company in the sector of renewable energy for off-grid and on-grid related applications. With a unique mix of experienced seniors and highly motivated management staff BOS aims at becoming one of the leading hardware suppliers for off-grid power storage solutions.

What makes Bos a good battery storage solution?

The latest innovation in BOS' battery storage products. The unique modularity of the BOS battery S and the superior compatability make it a true multi-use talent that can be implemented in a number of different applications. The LiFePO4 cells in use make the battery a specifically safe Lithium energy storage solution.

Bos balance of storage systems ag Germany

BOS Balance of Storage Systems AG

BOS Balance of Storage Systems AG. The 1 kWh modules are made in Germany & designed for durability & sustainability by employing a second-life concept, re-using batteries in less demanding applications. The casing material is a specially developed blend with up to 35% glass fiber, making the BOS Battery S a benchmark in battery design.

BOS Products Lithium Storage , Lithium Hybrid Systems , BOS AG

With scalable lithium battery storage that ranges up to 400 kWh per system--and the capability to implement projects in the MWh area--this system ensures a reliable, long-lasting power supply for diverse operational needs.
