Bosnia and Herzegovina energy storage news

Overview

How can the EU help Bosnia and Herzegovina achieve a green energy future?

The EU has made significant resources available for Bosnia and Herzegovina to speed up and scale up action towards a green energy future in Bosnia and Herzegovina, including through the Economic and Investment Plan for the Western Balkans, which makes 9 billion euro in grants available for the region.

Is energy transition possible in Bosnia & Herzegovina?

Johann Sattler, Head of the EU Delegation and EU Special Representative in Bosnia and Herzegovina called on newly formed authorities to make full use of the available resources for energy transition, and underlined that change is achievable.

What does the renewables readiness assessment mean for Bosnia & Herzegovina?

“The Renewables Readiness Assessment represents an important step in the process of gradual transition from fossil fuels to renewable energy sources on the way to the decarbonisation of Bosnia and Herzegovina’s energy sector by 2050, for which we are grateful to IRENA.

Does Bosnia and Herzegovina need economic reforms?

Bosnia and Herzegovina (BiH) has made significant development progress over the past two decades. To continue on this path of growth, the country needs structural economic and energy reforms, as well as improved coordination between all levels of governments in BiH, according to the latest comprehensive economic analysis prepared by the World Bank.

Why should Bosnia and Herzegovina invest in an integrated strategy?

An integrated strategy will provide investors with certainty and predictability, leading to a diversified economy and sustainable jobs creation. “The

forthcoming National Climate and Energy Plan will put Bosnia and Herzegovina on the right path to ensure the energy security while improving its long-term resilience to climate change.

Why does Bosnia & Herzegovina suffer a heavy cost of air pollution?

Sarajevo, Bosnia and Herzegovina, 25 September 2023 – Despite being a net electricity exporter, Bosnia and Herzegovina (BiH) bears the heavy cost of air pollution and health impacts due to the dominance of fossil fuels in its current energy mix.
