ST. CROIX — Officials cut the ribbon at the Petronella Solar Farm on Tuesday, bringing a new wave of renewable energy to the island, which is experiencing rolling blackouts due.

Solar Island Energy will help your British Virgin Islands business save significantly on energy bills, have reliable, self-contained utilities, improve its long-term value, and be less dependent on fossil fuels. We provide a free consultation to assess how.

Road Town, located in the British Virgin Islands, offers a favorable environment for solar energy generation throughout the year. This tropical location benefits from consistent sunlight, making it an attractive spot for solar PV installations.

Planned solar farms on St. Thomas and — eventually — St. John could bring that number up to \$400 million. “Right now, this power is 10.9 cents per kilowatt-hour,” Loranger said. “If we can get federal funds to pay for it, it’s in the Virgin Islands’ hands — it’ll go to zero. Now, look what you can do with the power price.
