

## European Solar and Energy Storage Solutions

# Brunei om energy solution

## Overview

---

Why is Brunei Darussalam focusing on oil & gas development?

Brunei Darussalam continues to strengthen upstream oil and gas activities to ensure long-term energy security and sustainability of oil and gas reserves. The country is considering the development of unexplored areas such as deepwater fields.

What type of electricity is used in Brunei?

Brunei's electricity sector is dominated by Natural Gas as the primary source of generation, with diesel being used to power the electric system in the Temburong district. Solar PV contributed less than 1% of the total share of generation in 2019.

Is biomass a source of electricity in Brunei?

Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. Brunei: How much of the country's electricity comes from nuclear power?

Nuclear power – alongside renewables – is a low-carbon source of electricity.

How much energy does Brunei Darussalam use?

Brunei Darussalam has 890 megawatts (MW) of installed capacity in power generation of public utilities, including 1.2 MW of solar photovoltaic (PV). Electricity production from public utilities in 2017 was 3.72 terawatt-hours (TWh). Energy supply and consumption in 2017 are shown in Table 3.1 Table 3.1. Energy Supply and Consumption, 2017.

Is oil refining a good investment for Brunei?

Brunei's Oil Refining industry offers an opportunity for domestic demand of Green H<sub>2</sub>. Using projected Oil Production, demand for H<sub>2</sub> in Oil Refining is

estimated at ~0.03 Mtpa in 2035. By 2035, Brunei could have ~30% of solar PV penetration in the grid.

What is the solar potential for Brunei?

The majority share of the target is planned from utility-scale PV solar (250MW) and distributed solar (50MW) From our estimates, the overall residential PV potential for Brunei is ~1000 MW, assuming average household area of ~200 sq m, based on data from ABCi.

### Brunei's role in global energy transition , Borneo Bulletin Online

Brunei, a small country with limited solar energy opportunities, should focus on utilising its gas resources to produce hydrogen while also implementing carbon capture, utilisation and storage (CCUS) technologies. By adopting this approach, the country can efficiently harness its gas reserves and take significant steps towards reducing emissions.

## Kent , Kent signs IJV with Serikandi Oilfield Services in ...

Kent is proud to announce the formation of an incorporated joint venture in Brunei Darussalam with renowned local and 100% Bruneian company Serikandi Oil Field Services. The IJV has been developed specifically to pursue and execute ...

## System Value Analysis
