

European Solar and Energy Storage Solutions

Brussel energie Slovakia

Overview

Does Slovakia still rely on Russian energy?

Slovakia is still dependent on Russian energy, but sending weapons to Ukraine is 'a matter of principle,' says energy official. Despite an EU effort to wean the bloc off Russian energy, Slovakia still gets 60 percent of its natural gas from there | Felip Singer/EPA.

Why is Slovakia selling its energy contracts to energy traders?

Although Slovakia is a significant producer of nuclear and hydroelectric energy, its biggest energy provider made a costly decision to sell off its excess power to energy traders early in the year. These traders are now selling the contracts back to Slovakia at market prices that are about five times higher.

Will Slovakia 'think about reciprocal measures' without gas transit?

Fico said he could not rule out that Slovakia might have to "think about reciprocal measures" without the gas transit. Slovakia has provided energy to Ukraine in recent years, such as electricity and diesel supplies, and provides humanitarian aid for its neighbour.

Will Slovakia stop gas flows in 2025?

Slovakia says stopping gas flows at the start of 2025 would not threaten its supplies due to sufficient storage, but it would hit transit operations and has warned it would impact market prices. (\$1 = 0.9618 euros) (Reporting by Jason Hovet in Prague, additional reporting by Kate Abnett in Brussels; Editing by Susan Fenton).

Will Slovakia support Ukraine?

"We have supported Ukraine in the past and we plan to support it also in the future regardless of this risk that exists," said Peter Gerhardt, Slovakia's state secretary for energy.

Will a €140bn windfall tax work in Slovakia?

These traders are now selling the contracts back to Slovakia at market prices that are about five times higher. “Slovaks are buying for €500 what they sold for €100,” Heger said, adding that for this reason a European Commission plan for a €140bn windfall tax on power generators in the bloc would not work in Slovakia.

Policy persistence vis-à-vis a crisis: the curious case of Slovak

In the case of wind energy (Slovakia currently has only two functioning wind turbines), the main obstacle is the process of environmental impact assessment, negative public perceptions surrounding wind energy projects, and the absence of comprehensive land-use planning on the part of municipalities (Slovak Association of Photovoltaic Industry)
