County, NY.

Cameroon will develop 4GW of renewable energy by 2035

Cameroon is on its way to developing up to 4GW of renewable energy across a range of technologies by 2035. A renewable energy provider has signed a Memorandum of Understanding (MoU) with the Cameroon West Regional that will see the country develop multiple projects located across the Western Region of Cameroon.

Helio Energy Solutions , Shelton, CT 06484

Helio Solar installed our solar system and anytime we have the slightest issue, they were immediately responsive. To be clear, the only issues were minor and were fixed asap. They actually spent a few hours and two trips fixing our air conditioning even though it had nothing to do with the solar power!

Green hydrogen demand in Cameroon's energy sectors by 2040

To capitalize on the abundance of RES, particularly solar, energy storage solutions are of

paramount importance for Cameroon. Utilizing surplus solar energy for the production of green hydrogen presents a compelling opportunity to address the nation's energy crisis, decarbonize its economy, and generate additional export revenue.

Helios Energy Transition Infrastructure

HETI will be focused on the development and management of profitable and sustainable gas-based and low-carbon energy solutions across Africa, with the goal of providing affordable and reliable access to energy, achieving a reduction of greenhouse gas ("GHG") emissions,
