Can the balcony locker store quilts

Overview

We can all agree that handmade quilts are a precious item to cherish. Even if you don't make quilts yourself, if you've found your way to this post, you probably have a special quilt you want to save. Let's discuss several of the best.

Now that we know the basics of quilt storage, let's go over some of the most common questions surrounding how to store quilts. Once you learn the answers to these questions, you can.

Here are some fun, unique ways you can store your quilts. Not only are these easy to recreate, but they will keep your quilts protected for years.

The best places to store quilts are cabinets, closets, or quilt storage chests. As mentioned earlier, if you are storing a quilt instead of displaying it, you should have it concealed in something to protect the fabric, whether that be acid-free materials, cotton pillowcases, or a cloth storage bag.

The best places to store quilts are cabinets, closets, or quilt storage chests. As mentioned earlier, if you are storing a quilt instead of displaying it, you should have it concealed in something to protect the fabric, whether that be acid-free materials, cotton pillowcases, or a cloth storage bag.

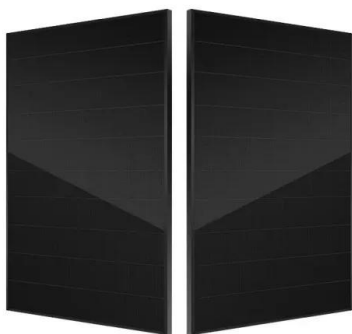

The simplest way to store quilts is to place them on unused beds. Bedrooms offer consistent temperature and humidity levels, which are ideal for storing quilts. Placing them on unused beds also helps prevent permanent creasing from folding. It's possible to lay multiple quilts on an unused bed.

The best way to store a quilt is in an acid-free container in a cool, dry, dark place. Make sure to clean and repair the quilt before storing and add mothproofing materials to the container. Storing a quilt in this way will help ensure its long-term preservation.

Don't store your quilts in a garage or attic. There's too much moisture and those areas are more prone to vermin. Learn how to preserve your family's heirloom quilts with safe storage techniques that will keep them as fresh as the day they were made.

Do not stack too many folded quilts on top of one another. Do not store quilts in plastic containers or bags. Plastic can trap moisture which could develop mold that will stain quilts. Do use clean white sheets to cover a stack of quilts for protection. Two other ways to store quilts is to roll them or to drape them over extra beds.

Store quilts flat in a dark area, and keep them off wood to avoid stains. And while attics and basements may be spacious, they're not quilt-friendly. Trust me, I've learned the hard way with ...
