The most significant feature of Copilot Pro is that it gives you access to Copilot features inside Microsoft 365. You do have to also pay the 365 subscription but it allows you to automate much.

Both the Captain and the First Officer share these roles - usually one of them is PF on the outbound leg and the other one is PM on the inbound leg. The PF manipulates the controls to actually fly the plane, whereas the PM handles communications and other required tasks that don't involve actually flying the plane.

Generally, co-pilots fly an aircraft when either the main pilot is on a break or there is an emergency. A co-pilot is essentially a backup pilot who's onboard to take command when the Pilot in Charge (PIC) can't. Co-pilots ensure a safe flight by assisting the PIC through the following 5 major duties. 1.

Learn how Microsoft Copilot can make your work and daily life easier. Effortlessly draft emails, catch up on meetings, and organize your week with intuitive prompts, all designed to help you achieve more every day. Are co-pilots essential to airline safety?

'Co-pilots are absolutely essential to airline safety. I would rather have a good co-pilot than a good #2 engine any day,' Randy Duncan, airline pilot. In aviation, the first officer (FO) is the second pilot (also referred to as the co-pilot) of an aircraft.

What can a captain do if he is a co-pilot?

There are some practical things that only Captains can do, like flying into some tricky airports, landing in strong crosswinds, and on many aircraft only the Captain can use the steering wheel (or Tiller) for taxiing. Historically there was a strong hierarchy - the Captain was the boss and the co-pilot was, you could say, a servant.

Do you need a restricted ATP certificate to become a co-pilot?

To become a co-pilot, a restricted ATP certificate is required. The requirements to obtain a restricted ATP certificate are as follows: A captain or co-pilot's salary is mostly dependent on the type of aircraft they fly, their experience, qualifications, and the airline's policies.

Is co-pilot a dead regulation?

It's a dead regulation and it's not enforced nor will it be. Today, co-pilots are given violations along with captains for misconduct of a flight. That means the captains no longer have sole responsibility. Since they no longer have sole responsibility, they also no longer have full authority either.
