# Canadian Solar Panel Efficiency

## Overview

---

Canadian Solar Incorporated is one of the 5 largest solar module manufacturers in the world; as of late 2022, they had an annual production capacity of about 31 GW. The company's corporate headquarters is located in Guelph, Ontario, and they maintain a 500 MW manufacturing facility also in Canada. That said, the vast.

As you might imagine with a company that has 20 years of solar manufacturing under its belt, Canadian Solar offers a large number of products. The bread-and-butter of the company is its HiKu line, which comes in many varieties.

On top of being great quality panels, Canadian's residential solar panels come in at a great price too. Costing an average of \$2.60 per watt, expect.

Canadian Solar makes excellent products and backs them up with warranties that meet or exceed the industry standard. The prices are competitive, and the company has a relatively long history of profitable operation, so you can be.

Canadian Solar's panels range in efficiency from 15.88% to 20.6%, and they have a materials warranty lasting up to 15 years on some products.

Canadian Solar's panels range in efficiency from 15.88% to 20.6%, and they have a materials warranty lasting up to 15 years on some products.

Canadian Solar offers higher efficiency (up to 23%) and wattage (380W to 705W) panels at a lower average cost, but with shorter warranties on most models (12 years).

While Canadian solar panels are very cheap, their efficiency is significantly lower compared to 22.6% of the world leaders like SunPower and LG.
