Grand Cayman, Cayman Brac, and Little Cayman. Created Date: 8/21/2020 3:06:01 PM

## Energy Efficiency First: The Cayman Islands' Bold Journey Toward ...

As such, the Cayman Islands' national energy policy lays out an ambitious goal: achieving 100% renewable energy by 2045, with an interim target of 30% by 2030. This bold vision illustrates the islands' commitment to a greener future and their determination to tackle climate-related issues head-on.

## Media statement: Brac Power and Light announcement , Dart

Already one of the largest producers of solar energy in Grand Cayman, Dart is committed to sustainable growth in the Cayman Islands taking guidance from the United Nation's Sustainability Development Goals and supporting the Cayman Islands' National Energy policy target to reach 70% renewable energy by 2037, and to reduce per capita

## MSCRW Presents Prizes to Climate & Energy Challenge Winners

1 ??· The challenge was activated across all

three islands and were sponsored by Caribbean Utilities Company (CUC), Foster's Supermarket, Island Energy and Cayman National Bank. The six winners are:

## Five Year Review , National Energy Policy Unit

On 16 April 2024, Cabinet approved the updated National Energy Policy 2024-2045 and the accompanying Implementation and Monitoring Plan. This is the first update to the National Energy Policy since its initial approval by the Cayman Islands Government in 2017.

## National Energy Policy , National Energy Policy Unit

Building upon the process developed to draft the 2017 NEP, the updated Policy draws upon inputs from Cayman Islands private and public sector stakeholders, and local and foreign experts advising on the current market context of energy sector reform topics, including energy efficiency, renewable energy, and electric vehicles.

## National Energy Policy: '100% renewables by 2045'

100% renewable energy by 2045; 100% of all new vehicle sales and imports will be electric by 2045. The plan also includes more technical policy decisions that are expected to significantly impact the transition to renewable energy, including safeguards to ensure that small

businesses participate in solar energy while encouraging innovation:
