Central enterprises halt purchase of photovoltaic panels

Overview

Why are Chinese solar panel manufacturers seeking a government intervention?

REUTERS/Stringer/File Photo Purchase Licensing Rights SHANGHAI, June 12 (Reuters) - Chinese solar panel manufacturers said they are seeking immediate government intervention to curb investment and industry collaboration to arrest a plunge in prices of solar cells and modules, as the industry faces overcapacity.

Did China circumvent rules to prevent subsidized solar panels from flooding US market?

The Commerce Department initiated its investigation on March 25 after Auxin Solar, a small solar panel manufacturer based in California, filed a petition requesting an inquiry into whether China was circumventing rules intended to prevent state-subsidized solar parts from flooding the U.S. market.

Are 83% of solar companies notified of canceled or delayed panels?

According to industry surveys, 83% of U.S. solar companies have reported being notified of canceled or delayed panel supply as a result of the Commerce Department's decision to initiate an investigation.

Which solar companies are not violating US trade rules?

Other companies that were also under investigation — namely New East Solar Cambodia, Hanwha Q CELLS Malaysia, Jinko Solar Malaysia and the Vietnam operations of Boviet Solar — were found not to be violating U.S. trade rules.

Will competition drive China's solar panels into bankruptcy?

However, with no end in sight for the plunge in prices, industry officials and analysts said intense competition was threatening to drive smaller producers into bankruptcy. Rapid capacity additions drove down prices of China's finished solar panels by 42% last year.

Why are US and China battling over solar panels?

The clash is the latest chapter in a decade-long conflict between the United States and China over the solar industry. In 2012, the United States began imposing duties on Chinese solar panels, arguing that Chinese manufacturers were unfairly selling their products in the United States at prices below the cost of production.

Central enterprises halt purchase of photovoltaic panels

Chinese Solar Makers Evaded U.S. Tariffs, Investigation ...

WASHINGTON -- U.S. officials have determined that four of eight major Chinese solar companies under investigation in recent months tried to evade tariffs by funneling products into the United

Seven major construction central enterprises battle ...

As the core sector to achieve the "30.60" dual-carbon goal, photovoltaic power generation, a trillion-dollar industry, has ushered in a dividend period of triple blessing from policy, market and capital. In this regard, several ...
