As commercial solar power specialists, we do not focus on merely providing systems but solutions to every business. We also perform research and development, working with exceptional international companies to bring you components, tailor-made for the South African business environment.

Is red energy a good solar company in South Africa?

“BMI has been in business for 34 years and one of the things we found lacking in South Africa is service, but Red Energy showed us that there are still people out there that thrive on service. I will definitely recommend Red Energy to anyone who wants to install a solar System and has already done so.”.

What is commercial or business solar power?

Commercial or business solar power involves installing solar panels on the rooftops or properties of businesses to generate electricity. This renewable energy solution helps businesses reduce their energy costs, lower their carbon footprint, and enhance their sustainability.

Why should you choose a sunarc Solar System in South Africa?

Draft legislation has already introduced energy management plans, carbon tax, carbon offsets and carbon budgets in South Africa. With a SunArc solar system, you will be in a position to benefit from these regulations as soon as carbon trading becomes operational here.
