4 drivers behind Namibia's solar market surge

Blessed with 300 days of sunshine per year and offering a climate well-suited for solar generation, Namibia represents a viable solar energy market. High solar irradiation levels coupled with an open, desert landscape provide a strong foundation for the development and expansion of solar panel systems.

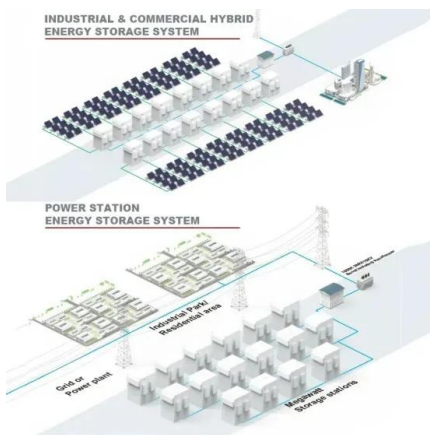

Namibia

NAMIBIA . Though it is large, the southwestern country of Namibia has a relatively small population -- and an interesting energy landscape. Namibia has a history of load shedding problems and has long relied on imported power from Eskom, on top of a low electrification rate of 56.3% (as of 2020). The drought at the Kariba Dam, the world's largest reservoir and a major ...
