# Datang Group Photovoltaic Support

## Overview

---

What is China Datang's agrivoltaic energy storage demonstration project?

The first phase of China Datang's 100,000 kilowatts of Agrivoltaic energy storage demonstration project in Wenchang's Wengtian Township, with an investment of ¥680 million, is installed with over 240,000 double-sided double-glass PV modules. In the first year after the project is put into operation, the modules can be used for 1401 hours.

How many kilowatts is China Datang agrivoltaic energy storage demonstration project?

On the morning of April 17th, China Datang's 100,000 kilowatts of Agrivoltaic energy storage demonstration project in Wenchang's Wengtian Township was successfully completed and put into operation.

Where is Datang Group's 100 mw/200 MWh sodium-ion energy storage project located?

The first phase of Datang Group's 100 MW/200 MWh sodium-ion energy storage project in Qianjiang, Hubei Province, was connected to the grid. From pv magazine ESS News site.

What is Datang Hubei sodium ion new energy storage power station?

The project represents the first phase of the Datang Hubei Sodium Ion New Energy Storage Power Station, which consists of 42 battery energy storage containers and 21 sets of boost converters. It uses 185 ampere-hour large-capacity sodium-ion batteries supplied by China's HiNa Battery Technology and is equipped with a 110 kV transformer station.
