At EnergySage, we've rated thousands of solar panels made by dozens of manufacturers based on efficiency, power output, warranty, and other important specs that allow each panel to make the most possible electricity over the longest period.

Where are most solar panels made?

If you're considering purchasing solar panels and are hoping to do so from an American solar panel manufacturer, learn all about US solar panel manufacturers.

SunPower, REC, Panasonic, Maxeon, and Jinko Solar offer the best solar panels. The type of solar panel, power output, efficiency, performance in warm climates, warranty, and price are the key factors to assess when comparing solar panels. The best solar panel for your home can depend on your roof space, shading, and climate.
