## Overview

---

Who is Dragonfly energy?

Dragonfly Energy has advanced the outlook of North American lithium battery manufacturing and shaped the future of clean, safe, reliable energy storage. Our domestically designed and assembled LiFePO<sub>4</sub> battery packs go beyond long-lasting power and durability—they're built with a commitment to innovation in our American battery factory.

What can dragonfly energy do for You?

At the forefront of domestic lithium battery cell production, Dragonfly Energy's patented dry electrode manufacturing process can deliver chemistry-agnostic power solutions for a broad spectrum of applications, including energy storage systems, electric vehicles, and consumer electronics.

When will Stevens transport transition to Dragonfly energy?

After extensive testing and trials, Stevens Transport has committed to transitioning its entire fleet of 2,500 trucks to Dragonfly Energy's lithium power solutions. Implementation will begin with equipping 100 trucks with the Battle Born All-Electric APUs in the first quarter of 2025, continuing through entire fleet completion.

## Innovation

Dragonfly Energy leverages a suite of world-class instrumentation from leading manufacturers such as Bruker and Tescan. This enables us to explore the intricate details of lithium-ion batteries at the atomic and molecular level, providing unparalleled insights for next-generation energy storage solutions.

50KW modular power converter

-  **Flexible Configuration**
  - Modular Design, Expanding as Required
  - Small/Light, Wall Mounted
  - Installed in Parallel for Expansion
-  **Powerful Function**
  - Support PV-ESS
  - Grid Support, Equipped with DVG Technology
  - On-Grid and Off-Grid Operation
-  **Reliable Protection**
  - Outdoor IP65 Design
  - Full-Range Protection Functions Equipped
