Eaton power systems United States

Overview

Who is Eaton power management?

At Eaton, we're dedicated to improving people's lives and the environment with power management technologies that are more reliable, efficient, safe and sustainable. We are a power management company doing business in more than 175 countries.

What is the Eaton Corporation poweradvantage partner program?

Register today and grow your business through Power Quality and Uninterruptible Power Suppliers (UPS) solutions with the Eaton Corporation PowerAdvantage partner program. Get uninterrupted growth, reliable support, and continuous rewards when you sign up for the PowerAdvantage partner program.

What is the Eaton Business System (EBS)?

The Eaton Business System (EBS) is the embodiment of our integrated operating company philosophy — it is how we work at Eaton and how we run our company in a common way. It all began in 1911. It was 1911 when a young entrepreneur named Joseph Eaton decided to invest in a new idea in transportation — the first gear-driven truck axle.

Eaton power systems United States

- LIQUID/AIR COOLING
- ON GRID/HYBRID
- PROTECTION IP54/IP55
- BATTERY /6000 CYCLES

Low-voltage power distribution & controls systems

About us , Power management company

What makes Eaton stand out amongst our peers is our power management focus, our values-based culture and our philosophy to run the enterprise as an integrated operating company. The Eaton Business System (EBS) is the embodiment of our integrated operating company philosophy -- it is how we work at Eaton and how we run our company in a common way.

Where can I find a distributor for my area?

Eaton is an intelligent power management company dedicated to improving the quality of life and protecting the environment for people everywhere. We are guided by our commitment to do business right, to operate sustainably and to help our customers manage power - today and well into the future capitalizing on the global growth

Power Up Consultant Training Program

Power Up training sessions are tailored for young engineers with eyes-on training, collaboration and networking opportunities. Key topics include: Power System Design; System Protection and Coordination; Power Quality; Trainings are hosted at local manufacturing facilities around the United States and at Eaton Experience Centers.

Choose a charging system , Eaton

While nearly every electric vehicle comes with a basic portable cord set that can be plugged into a standard wall socket, many EV owners opt to upgrade to a faster charging station for home use. Just as electric vehicles continue to be developed and improved, so do home-based charging systems, with current models available in a variety of shapes, sizes and price points.

Energy storage , Systems

The xStorage battery energy storage system (BESS) offers 250 to 1000 kWh of stored energy, providing eco-friendly backup power during outages and optimizes solar energy consumption, while also managing peak demands to reduce utility costs.

Global power management company

As a global power management company, we help our customers solve their greatest power

challenges through our industry leading electrical, aerospace, hydraulic and vehicle products and services. For more than 100 years, our teams have helped people work more safely, be more energy efficient and live more sustainably.
