duty commercial vehicles , EBZ

Peak power (discharging / charging): 20.0 kW / 33.2 kW Maximum continuous discharge or charging current: 500 A Cycle life for charging and discharging 2C, 100 % DOD, 25 °C: > 25,000 to 80 % of initial capacity

EBZ Group acquires a corporate share in nano power a.s.

This is particularly evident in the public transport sector, the core business of EBZ nano power, as a very high investment in electrification on the part of customers will be required in the coming years," says Thomas Bausch, CEO of the EBZ Group. The acquisition sees the EBZ Group expanding its know-how in the area of battery technology.
