

## European Solar and Energy Storage Solutions

# Ellis power Guam

## Overview

---

Why is Guam reliant on imported fuel?

With no indigenous fossil energy resources, Guam is reliant on imported fuel for their energy and transportation needs, with most of the imported fuel coming from Asia. The Guam Power Authority (GPA) is a public-power utility and autonomous agency of the government of Guam.

Does Guam need to retire power plants?

Guam Power Authority is challenged by the need to retire power plants while reliably and affordably delivering power to its customers. The settlement of an EPA Clean Air Act violation requires GPA to retire older fossil-based generating plants while Renewable Portfolio Standards mandate a transition to carbon-free electricity.

What data is available on Guam's energy sector?

Introduction This report summarizes the currently available data on Guam's energy sector as of December 2023. It describes primary energy consumption, end uses, energy production, relevant policies, and key challenges, including details on the electric power and transportation sectors.

Does Guam have a virtual power plant program?

Regulations are described in Guam Code § 8309. As per Guam Code § 8603, GPA must develop a Virtual Power Plant Program. The program would initially be capped at 20 MW and provide an alternative rooftop solar program to address the challenges of the Net Metering program. This program is currently under development.

Does Guam require a Bess (Benavente 2023)?

Guam Power Authority requires all new utility-scale solar PV power purchase agreements to include BESS (Benavente 2023). BESS requirements are written into each development request for proposals (RFP) (Cruz and San Nicholas

2023).
