The South Sudan crisis, explained

On July 9, 2011 the Republic of South Sudan became Africa's 55th country. Yet being a new country didn't absolve its 10 million residents from the burden of history. That peaceful secession from Sudan came after more than two decades of civil war, which led to massive loss of life, destruction, and displacement. Before that, there were even more ...

South Sudan

Background. South Sudan, which gained independence from Sudan on 9 July 2011, is the world's newest country. Home to a diverse array

of mainly Nilotic ethnolinguistic groups that settled in the territory in the fifteenth through nineteenth centuries, South Sudanese society is heavily dependent on seasonal fluctuations in precipitation and seasonal migration.

ENERCON

ENERCON is driving forward supply with renewable energies worldwide and is also involved in areas of future technology such as energy storage, e-mobility, and smart grid solutions. In doing so ENERCON is expanding its worldwide activities in line with demand.

WORKING PRINCIPLE

About ENERCON , Energy for the world , company and ...

Pursuing our mission of 'Energy for the world', we have been championing sustainable energy generation from onshore wind since 1984. Thanks to our innovative wind turbine technology, high quality standards and many years of experience, we are one of the industry's leading manufacturers anywhere in the world.

Enercon Industries Corporation

Enercon is the world's leading manufacturer of induction sealing systems and associated support equipment. Companies in the packaging industry rely on Enercon to provide induction sealing solutions providing hermetic seals that stop leaks, enhance shelf life, provide tamper

evidence and preserve freshness.

Induction Cap Sealing

The minimal maintenance costs and the reduction in production downtime are what make Enercon's range of induction sealers the number one choice worldwide. In comparison to other sealing methods, such as conduction, an induction sealer can provide reliable and secure seals without having to touch or handle the containers - no contact between

Induction Cap Sealing
