Overview

Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

LibGuides: History of Pitcairn Island: Home

A large part of Pitcairn Island's early history will forever remain a mystery. The full history of both the earlier Polynesian community and of the Bounty settlers will never be completely known.[See "Pre-Mutineer History"] Differing theories and contradicting stories concerning the events that took place after the mutineers arrived at Pitcairn, have been told.
