

European Solar and Energy Storage Solutions

European photovoltaic inverter

Overview

What is the future outlook for the European solar PV inverters market?

The European solar PV inverters market is expected to register a CAGR of over 6% during the forecast period. The market was negatively impacted by COVID-19 in 2020. Currently, the market has reached pre-pandemic levels.

What is the Europe solar inverters market report?

The Europe Solar Inverters Market Report is Segmented by Inverter Type (Central Inverters, String Inverters, and Micro Inverters), Application (Residential, Commercial and Industrial, and Utility-Scale), and Geography (Germany, United Kingdom, Italy, France, Spain, Nordic Countries, Turkey, Russia, and Rest of Europe).

How is the European solar inverter market segmented?

The European solar inverters market is segmented by inverter type, application, and geography. By inverter type, the market is segmented into central inverters, string inverters, and micro-inverters. By application, the market is segmented into residential, commercial and industrial, and utility-scale.

Who are the major manufacturers in the European solar PV market?

Major manufacturers across the Europe solar PV market are : LONGi. SUNEL GROUP These participants actively involved in strategic joint ventures & contracts to capture the regional market share.

What is Europe solar PV market size?

Europe Solar PV Market size was valued at USD 37.27 billion in 2023 and is expected to register CAGR of around 7.1% from 2024 to 2032. Continuous reduction in the cost of solar panels and associated components along with increased competition have led to more affordable solar PV installations.

Which country will dominate the European solar inverters market?

Thus, owing to the above points, Germany is expected to dominate the market in the forecast period. The European solar inverters market is highly fragmented. The key players (in no particular order) in the market include FIMER SpA, Schneider Electric SE, Siemens AG, Mitsubishi Electric Corporation, and General Electric Company, among others.
