Fiji dav energy solutions

Access to green energy

The project is a partnership between Fiji Gas, Obayashi Corporation and New Zealand-based company Halcyon under which renewable energy sources will be harnessed to generate power to meet the region's growing energy demand. Mr Michii said the project would also minimise greenhouse gas emission and preserve the environment.

Commissioning

Davenergy also has NEBB Certified Professionals (CxPPs, NEBB CP, QCxPs) and Certified Energy Managers (CEMs) licenses/certifications. Our team includes individuals who have extensive experience in current and previous commissioning projects, with VA, DoD, Critical Facilities, healthcare, and other critical environments.

Hotels join climate battle but more clarity on policies needed

In Fiji, the dire circumstances have been addressed by the enactment of acts of Parliament, policies, regulations, and strategic plans. On paper, Fiji appears to be a Pacific leader in climate change mitigation and green energy solutions, but some have questioned the seemingly slow uptake of renewable energy projects on the ground.

Solutions created by science subject teachers that clears your doubts ...

Tobacco firm goes renewable

The British American Tobacco (BAT) Fiji has signed a contract worth \$1.2 million with Vision Energy Solutions (VES) for the delivery of a solar project that will help the tobacco company reduce its electricity usage and carbon emissions.

Renewables for Fiji - Path for green power generation

The presence of rivers, mountains and data on rainfall makes hydropower the best significant source of energy for Fiji. Solar energy has vast applications. Water heating, drying crops, fish and fruits can be carried out with the use of solar thermal devices which utilize the thermal application of solar energy.

The Future of Affordable and Reliable Energy in Fiji

How can VES help power Fiji sustainably? Vision Energy Solutions (VES) generates power sustainably anywhere it is needed - Urban environments and on remote islands, at resorts and manufacturing plants, in medical facilities and business offices. The world power supply is

going through a process of fundamental change.
