# Free photovoltaic panels installed in the village

## Overview

---

Can a family install a rooftop photovoltaic system?

In communities embracing the collective leasing mode, all families possess equal opportunity to install rooftop photovoltaic systems; however, household income varies. Families with larger roof areas can install multiple photovoltaic sets and garner more rent.

Does community management influence household adoption of rooftop solar photovoltaics in rural China?

This paper examines inequality in household adoption of rooftop solar photovoltaics in rural China through a qualitative study of three villages. The Chinese government promotes distributed solar to drive low-carbon development. However, community management and China's institutional system influence unequal access.

Who can install rooftop solar?

Single-family homeowners and owners of multifamily residential buildings can install rooftop solar. Those who can't install solar, like renters or nonprofit organizations, can subscribe to a community solar project through ILSFA. Also, properties occupied by nonprofit or public facilities can get a solar project installed.

Is community solar a good option?

Community solar can be a great option for people who are unable to install solar panels on their roofs because they are renters, can't afford solar, or because their roofs or electrical systems aren't suited to solar. Community solar is rapidly growing across the country.

Why has the government installed solar panels on her house?

The Government has installed solar panels on her house which has given her much-needed relief from household expenses. "Earlier, when solar was not

there, I had to pay huge amount for the electricity bill - close to 2,000 rupees. However, with the installation of the solar, my electricity bill is now zero.

Does the Department of energy offer free solar panels?

The Department of Energy and the Solar Energy Technologies Office have got you covered! The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested.

## Free photovoltaic panels installed in the village

---

### New planning rules to boost solar rollout and slash ...
