How Tenka Solar wants to revolutionize the photovoltaic industry

The nerve centre of this project is the new research centre in Dubai, thanks to which Tenka has been able to boost the panels' evolution further. According to Giaquinta, meeting the world's energy needs is one of humanity's significant challenges for the 21st century. Tenka Solar, in collaboration with several university centres, has

Dubai Frame

The photovoltaic glass selected for the Dubai Frame was an ideal choice due to its ability to blend cutting-edge technology with the iconic design of the structure. The golden hue of the photovoltaic glass panels complements the luxurious aesthetic of the building, while the

glass itself provides exceptional functionality by reducing solar heat gain, contributing to energy savings in Dubai's
