NAMIBIA: IBC Solar and 3 German universities thrive for rural ...

The German company IBC Solar will collaborate with three universities in Bavaria, Germany, on the implementation of a project to install mini-grids in rural areas in Namibia. "Solar energy is now cheaper than grid electricity, and the photovoltaic market in southern Africa has significant growth potential.

Namibia partners with Chinese companies to build solar power ...

Namibia's state-owned power utility NamPower has partnered with two Chinese companies to commence the construction of the country's largest solar power plant, Reuters has reported. The move is set

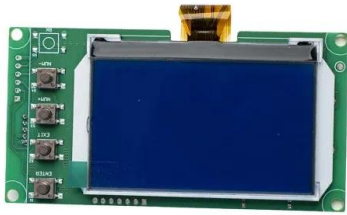

NAMIBIA: NamPower starts work on the 20 MWp Khan solar ...

Under the contract, the Windhoek, Namibia-based company will install 33,000 solar panels, 100 inverters and related equipment on a 16-hectare site. In order to optimise its production, the plant will be equipped with 67 single-axis trackers that allow the attached solar panels to follow the sun's movement from east to west.

SuperSolarSchool - GREEN Solar Academy Namibia

The SuperSolarSchool was developed together

with the DGS (German Solar Energy Society) and is the ideal preparation and recommended course before doing the SAPVIA PV GreenCard PV assessment. Technically inclined solar Newcomers; Employees of solar companies (technical staff and technically inclined sales and management) namibia@solar

Our Services

HOPSOL Africa is a technology leader for on- and off-grid solar power plants, fuel save controllers as well as solar diesel hybrid systems at utility scale (e.g. mining solutions). We are specialized in building and operating solar power plants in ...

Germany funds Africa's first green ironworks in Namibia

A consortium consisting of three German companies, CO2Grab, TS Elino and LSF, are overseeing the Hylron/Oshivela project in Windhoek, Namibia. that is produced can then be shipped to steelworks in Germany. "Namibia has ideal conditions for producing green hydrogen with the help of wind and solar energy," said economy and climate action

Our Services

HOPSOL Africa is a technology leader for on- and off-grid solar power plants, fuel save controllers as well as solar diesel hybrid systems at utility scale (e.g. mining solutions). We are specialized in building and operating solar power plants in deserts and desert-like regions.

German solar industry supports Namibian association

Within the framework of an intensive association partnership between the German Solar Industry Association (BSW) and the Renewable Energy Industry Association of Namibia (REIAoN), targeted capacity building ...

Development Bank of Namibia and Germany support climate

...

DBN's portfolio of climate-mitigating projects encompasses infrastructure projects for solar photovoltaic and wind generation as well as rural and urban water infrastructure and public transport projects.

Development Bank of Namibia and Germany support climate

...

Development Bank of Namibia and Germany support climate-related infrastructure development in Namibia; N\$240 million signed in December 2018, which was successfully placed in the market primarily assisting private

companies to set up solar PV infrastructure. Enhancing sustainable investment.

Namibian-German partnership showcase at Intersolar in Munich

The Namibian-German partnership of the German Solar Industry Association (BSW) is pleased to present an exciting event on "Opportunities in the Namibian Solar Market" on 15 th June at the 2023 Intersolar Europe trade fair in Munich. The event at this year's fair "The Smarter E" will take place from 11 -11:50am in Room B.12 (above Hall
