Ghana aoboet uhome

51.2V 300AH

Overview

Who is uhome smart energy?

Max. Charge Voltage Uhome Smart Energy (Wuxi) Co.,Ltd, a global leader in lithium-ion battery development and manufacturing, is committed to providing advanced solutions for global new energy applications. Its business covers R&D, as well as manufacturing and sales in battery systems for energy storage systems.

Are AOBO uhome batteries any good?

The Aobo Uhome batteries have very limited performance reduction compared to many Lithium batteries; they remain at full capacity down to zero degrees. In addition, each battery has superior charge and discharge rates of 30Amps which means faster charge and discharge capability.

How does the AOBO uhome 2400 battery work?

Each Aobo Uhome 2400 battery has an individual modem inbuilt, which means simple connection of each battery to the internet allows specific monitoring, technical support and future upgrades should it be needed. Unlike most Lithium batteries available on the market our Aobo Uhome 2400 will remain at full capacity down to zero degrees.

Who is aoboet?

Aoboet is a provider of energy efficient environmental solutions. Specifically, Aoboet provides air treatment solutions (ATS) for industrial applications, and energy efficiency solutions to households and small commercial businesses for use of solar.

Can AOBO uhome batteries be connected in parallel?

The Aobo Uhome batteries can be connected in Parallel for use in low voltage systems such as for most domestic solar or can be connected in series to create high voltage capacity. All our Lithium batteries storage systems can be

supplied and fitted with 1 to 8 batteries.

Where can I contact AOBO new energy?

Aoboet Battery: An Independent Review by Solar Choice

The Aoboet UHOME NCA is their flagship product in Australia. With a 6.8kWh nominal storage capacity, this battery uses Panasonic manufactured cells and a Battery Management

System (BMS) developed by Aobo.

About us , Banylab Ghana , Laboratory Suppliers in Ghana

Bany Laboratories and Supplies (Bany Lab) is an indigenous Ghanaian company which was duly registered under the Companies Code, 1963 ACT 179 of Ghana on March 20, 2006 to operate in the supply of Research Chemicals and Medical Laboratory Materials; Laboratory and Medical Equipment; Diagnostics Kits, Substances, and Industrial Chemicals in Ghana.

Aoboet Battery

In early 2018, Aoboet launched a new business division manufacturing and distributing lithium battery energy storage systems for residential and small commercial applications, which integrates with solar to store excess power generated for later use.
