### Countries can transform the global energy sector by fully ...

Full implementation of the landmark energy goals established at the COP28 climate conference in Dubai last year would drive down greenhouse gas emissions and significantly accelerate the transformation of the global energy sector, according to a new IEA report that can serve as a guidebook for turning countries' collective pledges into action.

### Le Gabon réintègre l'OPEP, et cherche à booster sa production

In English Après une absence de plus de vingt ans, le Gabon a rejoint l'Organisation des pays exportateurs de pétrole (OPEP) début juillet. Les autorités gabonaises cherchent à se rapprocher d'autres producteurs mondiaux de pétrole pour alléger en partie la pression découlant de la baisse des prix de l'énergie, et créer un environnement plus favorable

## How MENA Can Play a Pivotal Role in the Global Energy Transition

The MENA region can scale new energy pathways and lead the global energy transition. It has natural and strategic advantages needed to drive a diverse and sustainable energy future. Pioneering initiatives have already started taking shape in the region, such as Neom's green hydrogen plant, demonstrating the opportunity for scaling such early

## COP28: African countries sign on to join pioneering ...

Several African countries have formally expressed interest to join the groundbreaking Battery Energy Storage Systems (BESS) Consortium, launched Saturday during COP28, which could revolutionise Africa's energy ...

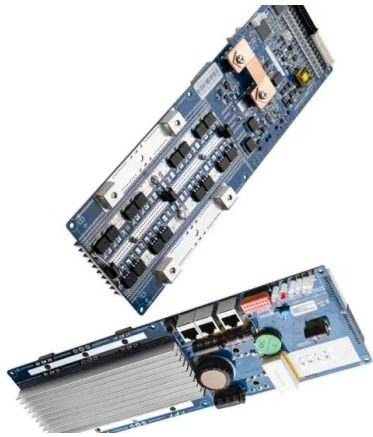

## SPIE Global Services Energy

Drawing on the expertise of its 5,000 employees, SPIE Global Services Energy helps players in the oil, gas and renewable energies industries improve the technical performance of their infrastructure, increase their energy efficiency and reduce their carbon footprint.

## Countries can transform the global energy sector by ...

Full implementation of the landmark energy goals established at the COP28 climate conference in Dubai last year would drive down

greenhouse gas emissions and significantly accelerate the transformation of the global ...

## UAE spearheads global renewable energy efforts

Meeting the Dubai Clean Energy Strategy 2050 targets requires a capacity of 42,000MW of clean and renewable energy by 2050. The strategy consists of five main pillars: infrastructure, legislation, funding, building capacities and skills, and having an environment-friendly energy mix.

...

## Dubai Energy Sector Research Highlights

In an interview with BBC World News on Thursday, December 13, Oliver Cornock, OBG's Global Editor-in-Chief, analysed and shared his insights on the agreement that was reached at the 2023 United Nations Climate Change Conference (or COP28) which was recently held in Dubai, UAE.

## La hausse des recettes pétrolières soutient le secteur énergétique du Gabon

A rise in energy prices has translated into higher revenues from Gabon's energy exports, in spite of a slight softening in production volumes. In the first quarter of 2017 the value of Gabon's oil exports rose by 70.9% year-on-year to reach \$51.30 (EUR42.90) per barrel compared to \$30 (EUR25.10) per barrel in early 2016.

## Global Energy Services , Oilfield Equipment & Technologies , NOV

Technology-driven solutions. For more than 150 years, NOV has pioneered innovations that

empower the global energy industry, enabling our customers to safely produce abundant energy while minimizing their environmental impact. The energy industry depends on our deep expertise and technology to continually improve oilfield operations and assist

## Global Energy Perspective 2024 , McKinsey

Increased energy demand and the continued role of fossil fuels in the energy system mean emissions could continue rising through 2025-35. Emissions have not yet peaked, and global CO 2 emissions from combustion and industrial processes are projected to increase until around 2025 under all our bottom-up scenarios. The scenarios begin to diverge toward ...

## COP28: African countries sign on to join pioneering global battery

Several African countries have formally expressed interest to join the groundbreaking Battery Energy Storage Systems (BESS) Consortium, launched Saturday during COP28, which could revolutionise Africa's energy landscape by developing advanced energy storage solutions through collaboration and innovation.

## Jean Paul Camus, Director-General, Société d'Énergie et d'Eau du Gabon ...

Get expert, on-the-ground insights into the latest business and economic trends in more than 30 high-growth global markets. Produced by a dedicated team of in-country analysts, our research provides the in-depth business intelligence you need to ...

## Who we are

A global technology company that develops and provides efficient, hi-tech solutions for the energy industry. Through advanced engineering and lightweight design, Welltec's solutions have helped clients increase operational efficiency and reduce carbon footprints in a safe and sustainable way for more than 30 years.

## Siemens Energy and partners inaugurate solar ...

Siemens Energy, in collaboration with Dubai Electricity and Water Authority (DEWA) and Expo 2020 Dubai, has inaugurated the first industrial scale, solar-driven green hydrogen facility in the Middle East and ...
