### SOLARMAN Smart

There are two algorithms for total yields. If you choose to calculate total production via total production data uploaded by devices, then Total Yields=Total Production\*(Desulfurization Feed-in Tariff+Nation FIT+Province FIT+City FIT+County FIT);

### Solar power monitoring technology: intelligent management of ...

As a clean and renewable form of energy, solar energy is becoming more and more popular. However, effectively monitoring and managing the performance of solar power systems is critical to improving energy efficiency. Solar power monitoring technology emerged as the times require, helping users achieve intelligent management of solar systems through real ...

### About Us

Watch Video About Us IGEN Tech Co., Ltd., founded in 2009, a high-tech enterprise, is professional in innovative applications based on technologies of IoTs, cloud computing and big data. In 2016, IGEN Tech obtained round A financing from Sequoia Capital, and in 2022, it obtained a new round of additional strategic investment. Being focus on [...]

## Service Contact

Service Contact Service Hotline  
 +86-510-68005664 (Mainland China)

## Solar Monitoring/Energy Monitoring and Management Solutions ...

SOLARMAN has developed a complete intelligent  
 PV solution including hardware, software and  
 data analysis to offer smart energy for global  
 customers. SOLARMAN smart cloud platform has  
 been a global leading PV monitoring and  
 management platform, focuses on managing  
 distributed PV power plants worldwide.

## Household Owner-SOLARMAN

SOLARMAN Smart is specially designed for end-  
 users, offering an extremely interactive  
 experience with comprehensive functions such  
 as real-time monitoring and control of home  
 appliances, customized infographic displays and  
 power ...

## Einfacher Zugriff mit Solarman Smart Login

Das Solarman Smart Login bietet eine intuitive und sichere Plattform zum Verwalten von Solaranlagen. Durch den direkten Zugang zur URL <https://home.solarmanpv> können Benutzer ihre Geräte schnell und einfach überwachen und steuern. Dies ist entscheidend für die Nutzung von Photovoltaiksystemen wie den Deye Wechselrichtern.

## solarmanpv · GitHub Topics · GitHub

Datalogger for Omnik solar power inverters with DSMR integration and output to Home Assistant, PVOOUTPUT, InfluxDB and MQTT Add a description, image, and links to the solarmanpv topic page so that developers can more easily learn about it. Curate this topic Add this topic to your repo To associate your repository with

## Household Owner-SOLARMAN

SOLARMAN Smart is specially designed for end-users, offering an extremely interactive experience with comprehensive functions such as real-time monitoring and control of home appliances, customized infographic displays and

power consumption analysis.

## Household Owner-SOLARMAN

Home Energy Management Wisely managing energy use has been a high priority when households are on the way to pursue a smart life with sustainable energy, improved efficiency and reduced bills. By applying advanced technologies of IoTs (Internet of Things) and wireless communication and etc., SOLARMAN products are able to connect a variety of devices in your ...

## Collect Inverter data from Solarman API

just go to <https://home.solarmanpv> and create an account and pair it with your inverter hardware (similar to what you probably already did with the smartphone app) Use the credentials of your just created account for the api access (email, password) The password must be hashed using e.g. SHA256 Online as already mentioned above.
