United Kingdom commits £10 million to Grenada's green energy ...

The United Kingdom has announced a £10 million funding package to support Grenada's Geothermal Energy Development Project, aimed at exploring and harnessing the island's geothermal energy potential.

Lumentech Energy Solutions: the future of solar technology

Lumentech Energy Solutions is leading the way in Ghana, advocating and marketing to the general public about the advantages of having solar as the main source of power in homes and businesses. Most big companies that use averagely over 50-100kv/h can use solar to cut their daytime electrical bills by over 50 percent.

Lumentech Energy Solutions: the future of solar technology

There are two recognized types of technologies for converting solar energy into electricity which are photovoltaic and concentrated solar power. Most energy supply facilities typically last several decades and technologies in these classes will dominate solar-powered generation between now and the future. Solar technology has come a long way in the last 10 ...
