### Thermal Solutions

The Business Unit Thermal Solutions develops and produces heat transfer solutions for an energy-efficient world. An extensive range of high-performance tubes and heat exchangers guarantees the best heat transfer with a minimum of material and thermal input, thus enabling significant increases in capacity and energy efficiency.

### Harnessing the Sun: Solar Energy's Role in Cuba's Revival

Introduction to Cuba's Energy Crisis The landscape of Cuba's energy supply is increasingly strained, with a reliance on outdated oil-powered infrastructure leading to chronic blackouts and shortages. Millions of residents find themselves in a daily battle with instability, calling for immediate action and innovative solutions to revive the national electric grid. The
