What is a whole house generator?

A whole house generator, also known as a standby generator, is a device that provides backup electrical power to an entire house in the event of a power outage. It operates automatically and is designed to restore power quickly and seamlessly, allowing you to maintain essential functions and appliances in your home even when the grid power is down.

Which home generator should I buy?

We researched the options and spoke with several experts to select the best home generators you can buy, including our best overall choice, the Briggs and Stratton PowerProtect 26kW Home Standby Generator, chosen for its versatility, power, and reliability.

What is a home standby generator?

The smart solution for automatic backup power. Whether you're home or away, if your home loses power, your home standby generator will restore it within seconds. We connect you with Authorized Generac Dealers in your area who can answer your questions and recommend the best home standby solution for your needs.

Who installs a Generac home backup generator?

Your Generac generator will be installed, serviced and supported by one of 10,000 Authorized Generac Dealers local to your area. Find out how a Generac

home backup generator helped the Pham family in Houston, Texas. Laurann M. of Los Angeles, California shares how her Generac home backup generator provides her family with peace of mind.

Why should you buy a whole house generator?

Whole house generators can help you disconnect from the grid entirely or keep your appliances running during extended power outages or emergencies when a portable or standby generator would otherwise fail. In order to take advantage of those benefits, it's crucial you get the right generator for your unique situation and application.
