How is the warranty for photovoltaic panels

Overview

A solar panel warranty is a guarantee from a solar installer that it'll repair or replace your system if certain issues arise within a specified time period after the system has been installed.

A solar panel warranty is a guarantee from a solar installer that it'll repair or replace your system if certain issues arise within a specified time period after the system has been installed.

Key TakeawaysSolar panel warranties vary by manufacturer and type of panel.A standard solar panel warranty should come with at least 10 years of protection.Solar panel warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment.□□□□.

The industry standard for the materials warranty is ten years, although the best solar panels offer up to a 25-year warranty.

Installation WarrantyThe manufacturer's warranties only protect you from issues related to the solar panels themselves: material defects, workmanship defects and loss of power output.The solar installation warranty offers additional protection, covering your photovoltaic system as a whole.This includes issues related to other components such as racking and wiring.Do you need a solar panel warranty?

Going solar is a big investment, and you'll want to make sure your solar panels are protected and will last for years to come. That's where a solar panel warranty comes into play. Your warranty can cover the cost of things like replacement panels, repairs and labor. It can also cover the performance of the solar panel system.

What types of warranties cover solar panels?

There are two basic types of warranties that cover solar panels. A product warranty protects you from defects in a solar panel stemming from material quality or manufacturing errors. This is also referred to as an equipment or

materials warranty.

How long does a solar panel warranty last?

A 25-year performance warranty is the industry standard for top-tier solar panel manufacturers. Material warranties can be shorter, and while 10 years is fairly typical, that number can vary by manufacturer. Here is a breakdown of the warranties provided by four of the top solar manufacturers: [What Can Void A Solar Panel Warranty?](#)

.

What is a solar panel performance warranty?

A solar panel performance warranty guarantees that a home solar panel installation will meet or exceed a baseline of electric power output over the panels' lifetime and warranty period.

How much does a solar panel warranty cost?

The cost of a solar panel warranty is \$0 in most cases. Solar manufacturers normally include the product warranty and performance warranty when you purchase the panels. If you have feedback or questions about this article, please email the MarketWatch Guides team at editors@marketwatchguides.com.

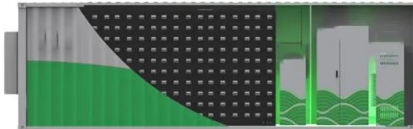

Why are solar panel warranties important?

Solar panel warranties are important to make sure you get the expected electricity savings over time. For example, if your solar energy system is expected to save at least \$1,200 per year, a 25-year warranty means you get \$30,000 in guaranteed savings. Solar panel warranties also help you qualify for favorable loan conditions.
