How many years is the warranty period for LONGi photovoltaic panels

Overview

How much power can a module produce in a warranty period?

The output power can reach 84.8% in the last year of the 25-year peak power warranty period. Supplier assures that any qualified module sold out can meet the power guarantee value mentioned above within 25 years of power warranty period from the Warranty Effective Date.

What is a limited warranty for solar modules?

Limited Warranty for Solar Modules Supplier is committed to the following quality performance warranty for solar module (hereinafter referred to as a module).

What is the performance of LONGi Solar panels?

The conversion efficiency is up to 22.3% and output power ratings in mass production reaches 570W. The Hi-MON was designed for applications on surfaces with high reflections, high temperature, limited land and high labour costs. LONGi solar panels come with an industry standard warranty of 10-year product and 25-year linear performance.

What is the warranty start date of solar modules?

The warranty start date of the Solar Modules stipulated under this Limited Warranty for Solar Modules (hereinafter referred to as "Limited Warranty") is the date of delivery to the Initial Customer or 6 months after the modules are shipped out of the production plant, whichever is earlier (hereinafter referred to "Warranty Start Date").

Do LONGi Solar panels degrade?

LONGi solar panels have slower degradation rates than other brands. LONGi guarantees that their mono panels will degrade by just 0.55% per year and 0.45% per year for the bifacial modules. In comparison to the traditional degradation rate of 0.7%, this is significantly lower.

What bifacial solar panels do Longi offer?

LONGi offers its bifacial solar panels for commercial, industrial and large-scale installations. Hi-MO 5 panels are designed for ultra-large power plants. In its Hi-MO X Series launched in 2019, LONGi also offers All-black, shingled, back-contact modules in the half-cut design and with high output power ratings.

How many years is the warranty period for LONGi photovoltaic panels

How Long Do Solar Panels Last? (2024 Guide)

Solar panels can last decades when well-maintained, but like any fixture or appliance, they degrade over time. Still, the long lifespan of solar panels is a significant pro for solar energy. Most solar panels come with a ...

How Long Do Solar Panels Last?

The standard production lifespan of a solar panel is about 25 to 30 years. Solar panel manufacturers typically warranty their solar panels for 25 years. These warranties guarantee that your solar panels will produce a ...

How Long Do Solar Panels Last? , Greentech Renewables

The regular warranty for photovoltaic solar panels lasts 25 years. Here is how the manufacturers come up with this number: They calculate a loss of efficiency of .8% for every year. At this rate ...

How long do solar panels actually last?

You can count on most photovoltaic solar panels

to last 25 years before they begin to noticeably degrade. Most solar panel companies will provide a standard 25-year warranty for the expected life expectancy of the solar panels. Solar ...
