How to deal with photovoltaic bracket theft

Overview

How can I prevent theft from my solar panels?

To prevent theft from your solar panels, connecting them to your alarm system is a great way as the alarm will go off if anyone starts tampering with them. Installing cameras that record the area where your panels are located is another effective measure. Using links to hold your panels together also makes them harder to steal.

What should I do if my solar panels are stolen?

Ensure your homeowner's insurance policy covers your solar panels in case of theft. Some solar panel owners choose to install GPS tracking devices on their panels, allowing them to be tracked and located if stolen. Ensure your solar panels are professionally installed.

Can portable solar panels be stolen?

Portable solar panels can be stolen with little effort since they're easy targets. You can't always be there to watch over them during a fishing or camping trip, so it's essential to take steps to prevent theft.

How do you attach solar panels to a mounting bracket?

You can use cables and padlocks to secure the panels to the mounting bracket. Holes can be drilled into specific parts of the frame to put the cables through. After running the cable through the solar panel frame and mounting bracket you must lock it with a strong padlock.

How do you secure solar panels to a roof?

To secure solar panels to a roof, you can use special anti-theft clamps and locks. These clamps require special keys to unlock. Solar panels can also be placed at the back of the house or where they are not visible from the street to reduce the risk of theft. This way, they won't attract any unwanted attention.

Can you hide a tracking device on solar panels?

Hide a tracking device on your solar panels. Sensor lights are a very effective way to detect and scare off burglars as it puts them in an instant spotlight as they pass in front of it, so why not place them on the roof of your house to safeguard your solar panels?

How to deal with photovoltaic bracket theft
