

European Solar and Energy Storage Solutions

How to get into the solar power generation industry

Overview

If you want to work in a field that lets you assist in the delivery of renewable energy to homes and businesses, you may consider pursuing a career in solar energy. Individuals in the solar energy field can work in various roles, including positions in manufacturing and installation. Learning about the different career.

Should you pursue a career in solar energy?

If you want to work in a field that lets you assist in the delivery of renewable energy to homes and businesses, you may consider pursuing a career in solar energy. Individuals in the solar energy field can work in various roles, including positions in manufacturing and installation.

How many Americans work in the solar energy industry?

As more countries move to renewable energy, the solar energy industry is growing across the United States. In 2018, 855,000 Americans worked directly or indirectly in the renewable energy sector, according to the Environmental and Energy Study Institute.

Is working in the solar industry a good career path?

Yes, working in the solar industry is a great career path for a number of reasons. A lot of jobs in the solar industry are easy to get started in, with most jobs in the manufacturing, installing, or sales sector not requiring a college degree. Not to mention, solar certification courses are very accessible; most of them can be completed online!.

What can you do with a degree in solar energy?

Individuals in the solar energy field can work in various roles, including positions in manufacturing and installation. Learning about the different career options in this sector can help you find one that's right for you.

Are solar jobs a 'green economy'?

Clean energy such as solar power is expected to be a key piece of the growing

"green economy," and jobs in solar power show great potential for new employment opportunities. Jobs are expected to grow in all the major sectors of the solar power industry: manufacturing, project development, construction, operation and maintenance, and installation.

What jobs will grow in the solar industry in 2011?

The Solar Foundation estimates that the largest growth in the solar industry in 2011 will be in occupations in solar installation, including photovoltaic installers and electricians and roofers with experience in solar installation.

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Tools to Find a Career in the Solar Industry: IREC's ...

Learn how using the updated Solar Career Map and IREC's new online course, Exploring Careers in the Solar Industry, can help interested job seekers learn about pathways within the solar industry. The solar industry ...
