Buyers can either purchase a system outright or obtain a solar loan. When you own a system, you receive solar tax credits and incentives, but you won't if you lease. Should I buy a solar panel system from a large company?

One popular option for installing a residential solar panel system today is contracting through a large solar company, such as SunRun. There are certain advantages to buying a solar panel system from a large solar company.

Where can I buy a solar panel kit?

Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.). Most solar panel kits are best suited for smaller applications, such as an RV or boat instead of a home.

Where can I buy solar panels?

Many businesses specialize in selling and installing solar panels for homes. Search online to locate solar panel suppliers and installers in your area. You can start with CNET's best list of solar panel companies. You can even shop for solar panels at major home goods stores like Home Depot.

Should you add solar panels to your roof?

The solar industry was shaken up over the last year, and it might have you confused. The Inflation Reduction Act, providing a 30% tax credit for the cost of solar panel system installations, along with falling solar panel prices and rising electricity costs, makes the case for adding solar panels to your roof.

Where can I find a solar panel installer?

Search online to locate solar panel suppliers and installers in your area. You can start with CNET's best list of solar panel companies. You can even shop for solar panels at major home goods stores like Home Depot. Stores like this can set you up with professional installation to help you get a residential solar panel setup.

Can you buy solar panels from a wholesale reseller?

Wholesale resellers sell equipment online to consumers looking to go solar. While labeled as "wholesale," these items will still typically include a markup so that the company selling the product will make a profit. It's currently not possible for consumers to purchase wholesale solar panels directly from panel manufacturers.
