Huawei solar in home assistant Guernsey

Overview

This integration exposes the information and functions made available by Huawei Solar inverters directly via one of its Modbus interfaces in Home Assistant.

Does home assistant work with Huawei solar?

It works! Maximum respect! I can't connect Home Assistant via Huawei Solar, although it works correctly via Fusion Solar.

What is a Huawei solar inverter integration?

This integration exposes the information and functions made available by Huawei Solar inverters directly via one of its Modbus interfaces in Home Assistant. Looking for more information?

The Wiki contains in-depth documentation and support materials. HA Energy Dashboard Services.

Does Huawei solar integration provide a 'input_power_with_efficiency_loss' sensor?

The "Huawei Solar integration" does provide the sensor `input_power_with_efficiency_loss` which takes the inverter efficiency into account. I have not tested this sensor, but my assessment is that it may cause inaccuracies and/or errors due to the step-by-step adjustment of the efficiency.

What are the custom sensors in the Huawei solar PEEs package?

The custom sensors in the "Huawei Solar PEEs package" are all based on only three types of power sensors provided by the "Huawei Solar integration by wlcrs" - this makes these custom sensors robust and the margin for error is minimized. You also need sensors to provide you with current electrical prices.

What integration options are available for a Huawei Solar System?

Hi all, For anyone that has a Huawei solar system - you know there's many different integration options including MODBUS TCP mode ECHONET LITE KIOSK MODE NORTHBOUND API Other custom integrations to get the smart meter.

Does the 'Huawei solar Pees package' work with other Inverter models?

The "Huawei Solar PEES package" include efficiency calculations for the Huawei SUN2000 L1 and M1 models. The package will work with other inverter models, but efficiency calculations will be done on basis of the efficiency calculations set up for these two models.

Integration Solar inverter huawei 2000L

Looking for v1.0.0 testers I've polished the integration in the past weekend, and am looking for people willing to test the beta-version. I

expect the sensor-part to be very stable already, but am not formally releasing it because of the new configurable parameter-entities that need some testing. I'm especially looking for users with more advanced setups with multiple ...

Another Huawei solar integration option

I have bought a Smartlogger 3000 A01 EU for my Huawei inverters (3 as a cascade with one Luna battery) while I am planned to add one or two Huawei inverters. But I use HomeAssistant and search for a smart way to integrate my inverters and battery in HA.

Integration Solar inverter huawei 2000L

For the house power consumption, I do: house power consumption = inverter active power - power meter active power But for some reason this gives a very noisy approximation. For example, in the graph below, the sun came through the clouds between 5:30 and 5:45, so the inverter power increases significantly. However no extra device was turned ...
