Huayou New Energy Storage

Overview

Does Sichuan new energy have a strategic partnership with Huayou holding?

Sichuan New Energy said it had signed a strategic cooperation agreement with Huayou Holding, parent of Zhejiang Huayou Cobalt, under which the partners will collaborate in producing lithium chemicals, as well as in the acquisition and development of important mineral resources at home and abroad.

Will Huayou buy lithium chemicals from Sichuan new energy?

Under the agreement, which is valid for three years, Huayou has also signalled its intent to buy lithium chemicals from Sichuan New Energy, the latter said in its filing, adding that the two sides would jointly build a lithium battery recycling base for Sichuan or even Southwest China as a whole.

Who is Huayou Cobalt?

Huayou Cobalt is a high-tech enterprise engaged in the R&D and manufacturing of new energy lithium battery materials and cobalt new materials. We strive to create a low-carbon and environmentally friendly new energy lithium battery industry ecology. Technology drives development, and innovation leads the future.

Will Huayou invest in lithium & cobalt?

Huayou, the world's biggest cobalt refiner in 2020, has been looking at investing more in lithium projects in China and overseas to add to its battery metal offering, a company executive told Reuters in September. Both lithium and cobalt are key ingredients in electric vehicle (EV) batteries.

Is Chinese cobalt maker Huayou partnering with Sichuan new energy?

Chinese cobalt maker Huayou is teaming up with state-controlled Sichuan New Energy Power Co Ltd to produce lithium and recycle spent batteries, a Sichuan New Energy filing said on Friday.

Will BMW and Huayou cooperate in power battery recycling and reuse?

According to the bilateral agreement, BMW and Huayou will cooperate in power battery recycling and reuse in an echelon network, which is expected to be conducive to ecological conservation and the improvement of resource utilization rates.
