SUN STORAGE

The INGECON SUN® STORAGE Power, together with Ingeteam's Plant Controller, generates the stand-alone AC grid (to which the PV inverters -both string and central models- and the loads are connected). The ISS Power is able to control the energy flows between this grid and the batteries, based on their status at any given time.

INGECON SUN STORAGE POWER DC-DC

The DC-DC Series of the INGECON® SUN STORAGE Power family is a bi-directional DC-to-DC converter designed to operate in combination with DC-to-AC solar PV inverters. Thus, it is intended to create DC-coupled solar-plus-storage systems. Besides, it features the same technology as Ingeteam's PV inverters, facilitating the supply of spare parts.
