Is the installation of rural photovoltaic panels a scam

Overview

The Energy Department and the Solar Energy Technologies Office have warned consumers about this type of online scam involving solar panels. We rate this claim False. Support independent fact-checking.

The Energy Department and the Solar Energy Technologies Office have warned consumers about this type of online scam involving solar panels. We rate this claim False. Support independent fact-checking.

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal.

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for "free" or "no cost" solar panels are scams. Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

Is residential solar a scam?

When done right, going solar can substantially reduce your carbon footprint and your energy costs. However, this rare double-whammy of benefits also makes the residential solar industry ripe for scams.

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old “government is paying people to go solar” scam. Related reading: [Solar Leases vs. Solar Loans vs. Solar PPAs](#).

Can a government or utility official sell solar panels?

Now, any government or utility official trying to sell you solar panels should raise a red flag because governments and utilities don't sell or install solar panels. The bottom line is that there are solar incentives that can help reduce the cost of going solar.

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .
